Writing	We are continuing to learn how to research a topic! We learned more about how to choose reputable sources, and researched on kid-safe websites. We made 4-squares in our writers notebooks to organize the information we gathered. We chose an animal to research. We chose a natural disaster to research. We researched famous people.
Reading	We continued our nonfiction reading unit. We read about Emperor Penguins. We learned about bugs. We read about water. We read about Mars. We read about Amelia Earhart. We learned how to compare/contrast information using two articles about recycling.
Math	We learned how to find missing factors in multiplication problems. We used square products to find the products of near-square facts. We practiced subtracting 3-digit numbers. We decomposed (broke apart) larger factors to find the product of multiplication facts.
Science	We are working on our All About Earth unit! We learned more about the layers of the Earth and volcanoes.
Handwriting	We learned the capital cursive U, V, T, F, W and X.
