Writing	We have completed and learned SO MUCH about chickens! We finished our reports on chickens and published them. We brainstormed describing words for spring and wrote spring acrostic poems.
Reading	We enjoyed listening to spring read aloud books and making connections. We read independent and had time to buddy read this week. We practiced grammar skills, and reviewed possessive apostrophes.
Math	We compared fractions using visual models. We ordered fractions with the same numerator and wrote rules for ordering sets of fractions. We compared fractions to $\frac{1}{2}$. We partitioned distances to locate fractions on number lines. We made and justified fraction comparisons.
Science	We learned more about the job of a geologist. We learned the different tests geologists do to identify rocks and minerals (luster, color, streak, cleavage).
Word Study	We worked on short and long i words. We learned three different ways to make the long i sound (VCe, igh, y).
