TIME

Family Note Today your child solved fraction number stories using a variety of fraction models, including pictures. Encourage your child to sketch a picture to represent each story.

Please return this Home Link to school tomorrow.

Solve these number stories. Show your answer as a fraction.
You may draw pictures to show your work.

- ① Ralph read $\frac{1}{8}$ of his book. What fraction of the book does he still have left to read?

My sketch:

_____ of his book

- ② Four friends equally share two bottles of juice. How much juice will each friend get?

My sketch:

_____ of a bottle of juice

- ③ Nora rode her bike $\frac{2}{2}$ of a block. Brady rode his bike $\frac{4}{4}$ of the same block. Compare the distances each child rode. What do you notice? Explain your answer.

My sketch:
